27 November 1974

Dr. Lee G. Burchinal
Head, Office of Scientific
Information Services
National Science Foundation
1800 G Street, N. W.
Washington, D. C. 20550

Dear Dr. Burchinal:

This letter is to request the occasional assistance of Dr. Harold Bamford of your staff to consult and advise on the design and construction of an elaborate information processing system that we hope to build over the next four or five years. We believe that Dr. Bamford's experience in project management would be highly useful to us in making sure that we effectively construct the system. I anticipate that we would take up to perhaps a week of his time in the course of a year.

Subject to your agreement, Dr. Bamford is willing to assist us. I hope that you will agree to his participation.

Sincerely,

[Redacted Signature]

STATINTL

Edward W. Proctor
Deputy Director for Intelligence
